# Smart Label Creator Installation Guide

The following information shows the introduction of Smart Label Creator and related software (hereinafter referred to as the "software").

## Software Overview

---

The configuration of the software is shown as below. Only the required software can be also selected at installation. However, a Printer Driver shall be installed.

- Smart Label Creator  
Software that is enabled to design and print labels of the SMART LABEL PRINTER® quickly.
- Import DB to Smart Label Creator  
Software that is enabled to import specific data of Microsoft® Word®, Excel®, Outlook®, and Access® into the database of the Smart Label Creator.
- Copy Text to Smart Label Creator  
Software that is resident in the Windows taskbar and is enabled to import text data selected in web browsers, e-mails, etc. into the Smart Label Creator.
- Printer Driver  
A printer driver to be used by the software. It is also used for printing from general-use applications.
- TechnicalSupport  
Software that automatically acquires status, information, and data when trouble occurs with the Smart Label Creator, and then saves it all as a technical support analysis file.

## Operating Environment

---

The operating environment of the software is described below.

### Operating Systems

- Microsoft® Windows® 8.1 (32 bit / 64 bit)
  - Microsoft® Windows® 10 (32 bit / 64 bit)
  - Microsoft® Windows® 11 (64 bit)
- ✓ Note
- Hereinafter, Operating Environment is abbreviated as "Windows".
  - Software installation or uninstallation requires administrator privileges.

### Target Product

- SLP721RT
  - SLP720RT
- ✓ Note
- For SLP721RT series, the sales destination is Japan only.

## Interface

- USB Port
- TCP/IP

## Installation

---

The software is installed at the same time with the printer driver.

For the installation procedure of the printer driver, see the installation part of "SII Printer Driver for Windows User's Guide" for SLP720RT/SLP721RT series.

## Uninstallation

---

The uninstallation method of the software is described below.

1. Delete the application

Select the "Smart Label Printer RT Series Driver for Windows" from the [Uninstall a program] in the Control panel. Click the [Uninstall] and delete the application.

2. Delete application data created by the user unit

Label data files or database files created by the user cannot be deleted only the operation of "1. Delete the application". When deleting these files, delete the following folder in Explorer.

%USERPROFILE%\AppData\Roaming\SII Smart Label Creator

## Startup

---

The startup procedures of the software are described.

- **For Windows 11**

Select [All Apps] - [Smart Label Printer RT Series] - [Smart Label Creator] from the Start menu, and then the software starts up.

- **Windows 10**

Select [Smart Label Printer RT Series] - [Smart Label Creator] from the Start menu, and then the software starts up.

- **For Windows 8.1**

Click the down arrow displayed in the bottom left of the tile menu of the Start screen. Click [Smart Label Printer RT Series] - [Smart Label Creator] from the [Apps] view, and then the software starts up.

## Reference Documents

---

The reference information except for this document is described below.

- For instructions on Smart Label Creator, see "Help" from the Help Menu of Smart Label Creator.

# Precautions

---

- Do not install the Smart Label (for SLP software) before version 7.1 after installing the software.
- All the software uses printer drivers for printing. Do not delete printer drivers.
